HARDY PLANTS

..From a..

HARDY CLIMATE

F. H. Horsford

CHARLOTTE, VERMONT, U. S. A.

This Supplement is designed to go with my spring catalogue, and while it offers a good many kinds which should be planted only in autumn, such as the Narcissi, Tulips, etc., it does not offer a large number of the herbaceous perennials which may be set in either autumn or spring. For these please see my catalogue, which has been mailed you. Many of the hardy perennials may be set with success in autumn by mulching with fine straw or leaves, which keeps the light and sun from reaching their roots in winter, and prevents the heaving by frost. Some of the Irises treated in this way do finely, which, without this protection, would hardly survive a severe winter. When perennials can be set early in autumn, and get a little start before winter, they give more and better bloom the following season than when the setting is left for late spring. It is very important, however, that the plants be set early enough to enable them to get something of a root growth before cold weather. I would not advise late setting for any of the herbaceous perennials.

Lilium speciosum rubrum. (See page 4.)

LILIES

In ordering Lilies from this list, customers should bear in mind that for the most part my bulbs are taken direct from the beds and, with the use of sphagnum moss, can be sent without the usual loss of shrinking of outside scales, so common in store bulbs. They are as fresh when received as when taken from the bed and usually without the loss of roots, which seldom come with store bulbs. I have found this same sphagnum moss, which I use in packing the bulbs, to be very beneficial to some of them, and we use loads of it every year under and around the bulbs when planting. I now use it under all my auratum, testaceum, candidum, Hanson, Grayi, and some of the speciosum, especially album and rubrum. For the auratum I have found it the best thing I have ever tried.

Many of these Lilies may be set by the middle of

September or sooner, but the auratums, speciosums, Henryi, Maximowiezii, and sulphureum will not be ripe enough to move before October. The candidum is better set not much later than in September, and the longiflorums, though ripe earlier, seem to give better results when set after October 1.

Orders will be filled from beds as long as my stock of each lasts, but *L. candidum* will be for the most part imported. I can guarantee them to bloom, however, if properly set, and in cold climates like this they should have a covering. For further instructions as to culture, description, etc., see Spring Catalogue, which will be sent if you have not already a copy.

These prices are not for free delivery by mail. Those wishing plants by mail, see my Spring Catalogue for cost of mailing plants. It is sent free upon application.

	Each	Doz.
<i>Lilium auratum</i> . First size bulbs	\$0 15	\$1 35

L. Wallichianum superbum. See <i>L. sulphureum</i> .		

Narcissus bicolor Grandee. (See page 6.)

DAFFODILS, or NARCISSI

Early-flowering, bulbous plants, coming before the tulips and after the crocus. One of the most important groups; fine for cutting, and of easy culture. Though any good garden soil suits, they prefer a rather stiff, deep soil, and if the situation is such that they are shaded from the sun a portion (a third or half) of the time, so much the better. They do well among shrubbery. To get the best results, they should be set in August or September, so as to make a good root-growth before winter. When late setting is done, the best results are postponed until the second season.

DAFFODILS or NARCISSI, continued

If by mail, add 6 cts. per doz. for those without stars, and 10 cts. per doz. for those marked by a star.

	Each	Doz.
Narcissus abscissus (muticus). A late, yellow Trumpet Daffodil.....	\$0 06	\$0 60
N. Barrii (Golden Mary). A showy, bright golden yellow, late-blooming sort, for cutting after the Trumpet species are done	per 100, \$1.. 05	35
*N. bicolor Empress. Very large flowers; white perianth, rich yellow trumpet; strong grower, and fine for cutting..	10	1 00
*N. bicolor Grandee, or grandis. Later, coming after Empress and Horsfieldii; very large flowers with yellow trumpet and white perianth; dwarf; sturdy in growth.....	10	1 00
*N. bicolor Horsfieldii. Very large and early; yellow trumpet and white perianth.....	per 100, \$5.. 08	80
N. bicolor Mrs. Walter T. Ware. A fine new sort, with broad white perianth and golden trumpet.....	25	
N. bulbocodium citrinum (Hoop-petticoat Daffodil)	05	35
N. Burbidgei. One of the most charming for cutting. Clear white cup, margined bright cinnabar-red; a beautiful early-flowering form of Poeticus, which comes before Poeticus ornatus. Very effective when bunched. The color of cup is very rich when cut in bud and opened under glass.....	per 100, \$1.50.. 05	45
N. Burbidgei (Baroness Heath). Perianth yellow, cup suffused throughout orange-scarlet. Distinct and beautiful.....	20	
N. Burbidgei (John Bain). Large and broad white perianth, with small, citrou-yellow cup and orange-scarlet edge.....	08	50
N. Henry Irving. Noted for its deep yellow, lubricated, wheel-shaped perianth, and large and handsome yellow trumpet	10	1 00

	Each	Doz.
Narcissus incomparable, Autocrat. Bold, handsome, large yellow flowers; expauded yellow crown \$0 06		\$0 50
N. incomparable, Beauty. A grand, large flower; sulphur-yellow perianth, with yellow bar; crown large, and mar- gined with orange-scarlet 30		
N. incomparable, Frank Miles. Large yellow flowers of very charming, ele- gant form 10		1 00
N. incomparable, Sir Watkin. Very large flower; valuable for market ... 10		1 00
*N. Johnstoni, Queen of Spain. One of the best of new Daffodils. Soft cream, delicate clear yellow trumpet; perianth same color; reflexing. Flowers vary slightly in size..... 10		1 00
N. Leedsii. Silvery white, starry peri- anth; lemon-yellow cup, passing to white. A beautiful sweet-scented flower; fine for bouquetsper 100, \$1.50.. 03		25
N. Leedsii, Mrs. Langtry. Broad, white perianth; large white cup, edged with canary-yellow. A free bloomer and very fine 25		
N. obvallaris (Tenby Daffodil). Rich, full yellow; early..... 06		60
N. poeticus ornatus. One of the earliest of the Poet's Narcissus; a free bloomerper 100, \$1.50.. 05		35
N. triandrus albus (Cyclamen-Flowered Narcissus or Angels' Tears). Ele- gant white flowers, several from a bulb; fine for pot culture. Plant several in a pot..... 06		40
N. Jonquilla. Single yellow Jonquils; yellow, fragrant flowersper 100, 90 cts... 25		
N. alba plena odorata. The Double Poet's Narcissus. One of the most charming white-flowered sorts; fine for cutting..... 05		35
*N. Double Von Sion. Very large and full; double; immense flowers 05		50

	Each	Doz.
*Narcissus, Double incomparable. Large yellow flowers	\$0 05	\$0 45
*Mixed Daffodils, to naturalize in meadows, etc. A first-class mixture, comprising many of the best herein listed	per 100, 60 cts...	

CROCUSES

The ordinary spring-flowering Crocus will thrive in nearly all soils and positions.

Add 5 cents per dozen, if by mail

	Doz.
Mixed Crocuses	per 100, 60 cts...\$0 10
" " Purple colors	15
" " White colors	15

TULIPS IN MIXED COLORS

Tulips like good drainage, and when planted over a gravelly subsoil or bottom succeed best. It is a good plan to surround the bulbs with sand, unless they are put into a sandy soil. A depth of 4 inches is none too deep for cold climates. Set the bulbs 5 or 6 inches apart.

In ordering Tulips by post, add 6 cts. per doz. for postage

	Doz.	100
Large Early Single Tulips	\$0 20	\$1 00
" Late " "	20	1 00
" Early Double "	35	2 00
" Late " "	40	2 25

100 Tulips in the four kinds, 25 of each, for \$1.25; 400 bulbs, 100 of each, \$4

	Doz.
Parrot Tulips	per 100, \$2.30..\$0 40
Late-Blooming or Show Tulips	each, 8 cts.... 90
Single Tulip, Artus. Bright scarlet	25

ERYTHRONIUMS

(Dog-Tooth Violets)

Early-blooming, bulbous plants, which must be set in autumn. They come up among the first flow-

Hardy Plants from a Hardy Climate

ers of spring, and are very interesting, both in flower and leaf.

Add 3 cents per dozen, if by post

	Each	Doz.
Erythronium albidum	\$0 10	\$1 00
E. albidum , var. coloratum is a form with more color, from Texas	12	1 10
E. Americanum (Common Adder-Tongue). Handsome bright yellow flowers; hardy	08	45
E. grandiflorum . A large yellow species from the Pacific coast.....	06	45
E. Hartwegii . Flowers light yellow, with orange center.....	06	45
E. revolutum , var. Johnsoni . Very charm- ing dark rose flowers, orange center..	12	1 25
E. revolutum , var. albiflorum . Has white flowers	10	1 00

FRITILLARIAS

These like a sandy or gravelly soil, with good drainage.

*Add 5 cts. per dozen for postage for those without stars,
and 10 cts. for those marked with a star*

	Each	Doz.
*Fritillaria imperialis (Crown Impe- rial).....	\$0 15	\$1 30
F. parviflora . Very early.....	08	80
F. pudica . Also an early-flowering little plant. Hardy, with pretty yellow flowers.....per 100, \$5..	07	70

HYACINTHS. FOR BEDS

Hyacinths like a light, loamy soil and full sun. A light coating of well-composted manure, if the ground is not already well supplied, will be of value. Plant about 3 inches deep, and if the best flowers are desired, the bulbs should be from 7 to 9 inches apart.

Add 16 cts. per dozen for postage, if by mail

	Each	Doz.
Double Mixed	\$0 06	\$0 50
Single Mixed	09	40

TRILLIUMS

(American Wood Lily, Indian Shamrock, or
Three-Leaved Nightshade)

Add 10 cts. per dozen if by mail

For the Shady Corner

Like most early-blooming plants, Trilliums give better results the following spring when planted in autumn in time to make their regular root growth, which seems to take place a few weeks after the stems have died. They form a very pretty group, which comes into bloom early, and whose leaves make a good display after the flower has passed. Trilliums like a light soil, with a mixture of leaf-mold or peat, and for most of them, a little well-rotted manure will be beneficial. Although they may, as a rule, be grown in the sun, a shade, or partial shade, is the most natural place. They look best when in good-sized groups. In a good position they last almost indefinitely.

	Each	Doz.
Trillium cernuum. White	\$0 10	\$1 00
T. erectum. Purple	10	1 00
T. " albidum. White	10	1 00
T. sessile Californicum. White	15	1 25
T. nivale. White	20	
T. grandiflorum. White..per 100, \$2.50..	05	35
T. erythrocarpum. White, striped with purple	15	1 25
T. recurvatum. Brown and purple	20	
T. stylosum. White, turning to rose	10	1 00
T. petiolatum. Purple	15	1 25
T. ovatum. White	15	1 25

BULBOUS IRIS

	Each	Doz.
Iris reticulata. True. Flowers dark blue, fragrant	\$0 20	
I. reticulata, var. Krelagei. Flowers red- dish purple; early	15	\$1 40
I. reticulata, var. histroides. Flowers bright blue; very early	20	
I. Xiphium (Spanish Iris). Very fine bulb- ous flowering plants, coming into bloom soon after the German Iris, with blue, white and yellow flowers...	05	35

	Each	Doz.
Iris Xiphium (British Queen). Large light or white flowers	\$0 08	\$0 60
I. Xiphium Leander. Has golden yellow flowers of good size.....	08	60
I. Xiphioides (English Iris). Large flowers in handsome blue and white colors, about as tall as the Spanish Iris, and coming just after it.....	08	60

MISCELLANEOUS BULBS AND PLANTS,

Which, because they bloom early, or for other reasons, are set in autumn.

See my Spring Catalogue for cost of postage if sent by mail

	Each	Doz.
Allium tricoccum (Wild Leek).....	\$0 10	\$1 00
Anemone acutiloba.....	12	1 00
A. Hepatica.....	12	1 00
A. thalictroides.....	08	75
Arisæma Dracontium (Green Dragon)....	15	1 10
A. triphyllum (Indian Turnip)	12	1 00

BARGAIN LIST

I have offered for several years in my Fall Supplement this list of special bargains, which has resulted in a large trade in this way. These sets are made up of plants mentioned in my Spring List, and are offered cheaper in this way than in smaller lots because we have a larger stock of these, and in autumn we have more time to fill orders. These offers are not open to spring delivery, because then we can not spare the time they require in filling. Those wishing to take advantage of any offers for shrubs, trees, etc., in this list, for spring setting, can get them in November, and cover them in any well-drained soil, leaving only the tips of the branches exposed, where they will keep in perfect condition, and may be set in spring as soon as the ground is ready. For cost of boxing trees and shrubs, see my Spring Catalogue. These prices do not include postage. Parties wishing these sets by mail will be given cost of postage upon application, where mailing is possible. We can ship safely by freight in autumn most of the plants we grow, even as far as California. These offers are subject to surplus stock being sold.

BARGAIN LIST, continued

25	Achilleas, 4 kinds, 3 colors	\$1 45
